

REACH THE CLOUD FASTER.

Today, more and more companies rely on the cloud to access information and share files so that teams can productively collaborate in real time, regardless of location. That means the speed and ease with which you access the cloud is just as important as what is stored there. **Comcast Business Class** Internet brings you the cloud at speeds up to 64 times faster than T1. Or flexible data solutions like Metro Ethernet make access to the cloud even better.
